About Me

Bina Darma University students majoring in Informatics Engineering are active in web development and UI/UX design, creating sites using frameworks such as Bootstrap, Semantic Ui, Tailwind CSS and I also use Javascipts Frameworks such as Next Js, React JS, and React naive. In addition, I also have some basic Microsoft Office software skills, including the ability to edit images or create brochures using Adobe Photoshop and Figma. Have the potential to work well together and can work in a team. I am a person who likes to learn new things and do a lot of things. Everything runs well before the deadline so I can complete tasks easily and without rushing.
